

“Remote Deposit Capture from Independent Bank of Texas completely takes the geographic location factor out of our banking decision.”

Laurie Wall
The Wall Team

The Wall Team is the #1 real estate team in the Mid-Cities (Colleyville, Grapevine, Southlake, Bedford, Euless, Hurst and North Richland Hills), considered to be the “neighborhood experts” for the area. Regardless of the real estate needs of buying and selling The Wall Team is ready to serve your needs.

“We love it! Our business and our home is in Colleyville and we stay very busy right here in our own market area, so driving to Irving was not convenient. Because of Remote Deposit Capture it’s not even an issue,” noted Laurie Wall of The Wall Team. “Independent Bank of Texas gives great service. It’s great to work with a bank that operates this progressively, overcoming all obstacles for their customers. We appreciate the personal approach they have with us as clients.”

Independent Bank of Texas Remote Deposit Capture is a check processing solution that allows business customers to make deposits electronically by utilizing a desktop scanner connected to their PC and the Internet. Once checks that are to be deposited are scanned, images of the checks are electronically transmitted for deposit directly to Independent Bank of Texas. This deposit solution dramatically reduces the amount of time spent preparing and delivering deposits and gives the business more time to spend on growing their business.

About The Wall Team

The Vision of The Wall Team is to serve the real estate needs of the people God brings across our path with a servants heart, valuing the relationship over the transaction and trusting in God for the end result and His purpose.
