

Remote Deposit Capture

IBT Remote Deposit Capture utilizes a desktop scanner that connects to your PC and the Internet. With it, you can scan checks received from customers and issues deposits electronically to the bank. It's the fastest and easiest way to make your deposit.

What you'll need

- 1 GHz processor
- Monitor with 1024 x 768 resolution
- 256 MB RAM
- Hard Drive with at least 3 GB of free space
- Microsoft Windows 2000 or Microsoft Windows XP
- Open USB Port
- High speed Internet connection

BENEFITS

Save time preparing deposits

Preparing deposits electronically is very efficient, reducing labor cost and freeing up staff for other tasks.

Reduce expenses

Electronic deposits will reduce trips to the bank saving employee time, fuel, or costly courier fees.

Secure

Remote Deposit Capture features multiple layers of security including password protection, Internet firewalls, and 128-bit encryption, the highest level of security available.

Peace of Mind

Know your deposits are made every day.

Ease of Research

You can review the images of items deposited for the last 45 days.

Ease of use

Make deposits 24 hours per day / 7 days a week.
Extended daily cutoff to 5 p.m.
